

In our hunt for new material values, success and high pace ...
we lose what we need most: time.

In our hotel and in our restaurant with sea view, you have the opportunity to take a break - to enjoy with all your senses. Take a deep breath and get a new perspective

Our fresh ingredients from the region form the basis of the compositions our team in the kitchen makes. The kitchen offers a modern, regional and seasonal cuisine with international influence.

The motto of our kitchen is: fresh, tasty, regional - and a bit rude.
On the menu, guests will find tasty dishes from land and sea. A local menu controlled by the changing seasons, all fresh and excellently cooked.

Enjoy what you like best - in the restaurant, the bar or on the terrace.
When the West Norwegian weather is on our side,
there are 30 seats on the outdoor terrace;
with sea view, motorized roof and heating lamps.

Enjoy!
